

NEW Morrell Zoom Microscopes UMZ-120 with Leica Optics, Binocular & Trinocular

Morrell economically combines technologically advanced instrumentation with high performance optics. Ideal for satellite offices, clinics & missionary expeditions or stations. Specializing in portable microscopes. Most with the following features & options:

Stereo Binocular, Zoom, Assistant Scope, Coaxial Illumination, Fiber Optics, 150W Halogen 110v or 220v with Rheostat, Video & Digital Camera on certain models, Motorized Focusing, Tripods, Table Clamps, Table Tops, Heavy Large Stands with Locking Casters,

STANDS:

- 1) TC
- 2) ME
- 3) LT

UMZ-120-TC	\$ 5,395.00
UMZ-120-ME	\$ 5,795.00
UMZ-120-LT	\$ 5,595.00

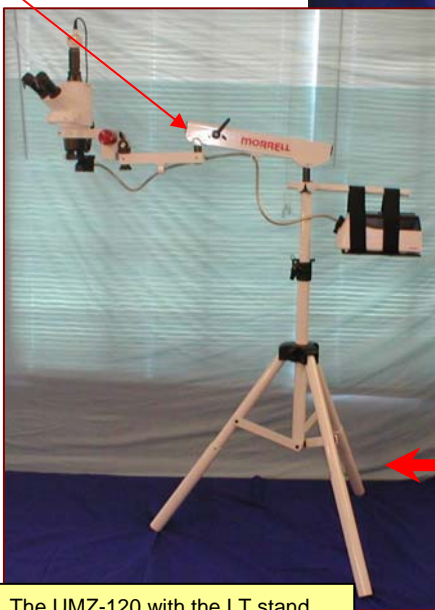

Morrell UMZ-120T with Leica Optics

Key Features

- 6.3:1 zoom
- Standard magnification 3.6x - 25x
- Integrated video/photo output 0% / 100%
- Ergonomic objectives for optimized viewing height
- Working distance 190mm
- Adjustable upper and lower zoom magnification stops

Detailed Description

The Morrell UMZ-120T with Leica Optics (StereoZoom) with integrated video-/phototube (0 % / 100 %) is perfect for documentation and allows easy and rapid mounting of DIGITAL & VIDEO cameras. **The optics are designed to produce high-resolution, high-contrast, chromatically optimized, clear, sharp, and non-distorted images.** Conventional film and analog video cameras achieve outstanding results as well. The Morrell UMZ-120 with Leica Optics has an optimized viewing angle for proper posture and improved comfort. Ergonomic objectives permit fine adjustments of working distance and viewing height.

The UMZ-120 with the LT stand allows for everything to be packed in one heavy duty case. Scope, Light Source, Stand, etc...
